The overall risk rating score is Likelihood x Impact

The matrix has 3 filters – red, amber and green:-

	Red risks are those which cause the Council or service greatest concern, are in need of closer attention and may require more frequent scrutiny, review and reporting
X	Amber risks are those that should be reviewed periodically to determine if practical steps can be taken to reduce the scoring to 'green' and the control measures in operation regularly reviewed
	Green risks are likely to require no further action but should still be subject to review
