Survey results:

Hampshire Avenue Recreation Ground Survey Report

December 2014

Report Author: Philip Frean, Policy & Research Officer
1. BACKGROUND

1.1 The Council is consulting with residents on how best to spend £103,000 on the Hampshire Avenue Recreation Ground open space. The money has been paid by the developer of housing at the nearby former Bognor Regis Community College site as part of planning permission for new homes.

1.2 An online survey was promoted on the home page of the Arun District Council website. A staffed exhibition stand at the Bognor Community Action Network’s Community Christmas Fair on Saturday 22\textsuperscript{nd} November promoted the consultation. An article on this event appeared in the Bognor Regis Observer with a link to the online survey. The consultation was promoted by Spirit FM on Friday 28\textsuperscript{th} November, on air and on their website. Paper questionnaires were available should respondents prefer to respond this way.

1.3 The consultation ran from 19\textsuperscript{th} November to 12\textsuperscript{th} December inclusive. During this period a total of 108 responses were received\textsuperscript{1}.

\textit{Figure 1 – view of Hampshire Avenue Recreation Ground showing existing play area (Westloats Lane side)}

\textsuperscript{1} Assuming a catchment area of 0.5 mile around the site, the total population within this area using 2011 Census data is around 12,130 (Orchard and Pevensey wards). A sample of 108 is subject to a maximum standard error of +/- 9.5\% at the 95\% confidence level on an observed statistic of 50\%. Thus we can be 95\% confident that if the whole population had responded the actual figure would lie between 40.5\% and 59.5\%.
2. EXECUTIVE SUMMARY

2.1 Of the 108 respondents, nearly 70% are females aged over 30, with 44% being females aged between 31 and 50.

2.2 56% report using the recreation ground weekly or more often.

2.3 86% report living within comfortable walking distance. Two in three say they live within 5 minutes’ walk of the recreation ground, with just over a quarter living less than a minute away.

2.4 62% who feel they live within comfortable walking distance visit weekly or more often compared with just 20% who feel they don’t live within comfortable walking distance.

2.5 The recreation ground is used for a wide variety of activities. The most popular activity is the ‘play area’ which is used by half of those responding. The respondent age profile assumes most of these are supervising children or grandchildren. ‘General play’ and ‘dog walking’ are the next two most popular activities, each mentioned by more than a third of respondents.

2.6 Asked what, if anything, they currently like about it, respondents’ comments include: a big open space, lots of space for everyone; a good community area to hold fetes etc; good for local children to play and parents to take smaller children to the play park.

2.7 Asked what, if anything, they currently dislike about it, comments include: unsavoury people loitering, creating a nuisance; litter and dog mess are problems; just grass and a play area - no paths, benches, or structure to it; play area needs upgrading (equipment, safety surfacing).

2.8 93% of respondents said they would like to see changes to the recreation ground.

2.9 For improvements to recreation facilities: ‘children’s play equipment’ was mentioned by 57% of respondents, followed by three facilities (toddler’s play equipment; an informal kick about area; and outdoor exercise equipment) that were each mentioned by 43-44% of respondents.

2.10 For landscape improvements: ‘more benches’ was the clear favourite, mentioned by nearly two thirds of those responding. ‘More trees’ were mentioned by almost two in five.

2.11 56 said that they would like to stay in touch and 12 said that they would like to get involved in some of the landscape projects.
3. **KEY FINDINGS**

3.1 Respondents were asked to provide their demographic details to help us understand the types of people responding to the survey. Figure 2 shows that nearly 70% are females aged over 30, with 44% being females aged between 31 and 50. Figure 3 compares the respondent age and gender profile with that of the recreation ground’s catchment area\(^2\), highlighting the major differences\(^3\).

**Figure 2 – Age and gender of respondents [Base: 104]**

![Figure 2](image2)

**Figure 3 – Respondent profile v. catchment area profile**

![Figure 3](image3)

Key: solid bars = respondent profile; outline bars = catchment area profile

\(^2\) For this purpose the four Bognor Regis wards plus Bersted ward have been used. Using a slightly different catchment area would not significantly alter the results.

\(^3\) For larger surveys where the respondent profile does not match the profile of the population, sample weighting is used to adjust the results, however as this is a small sample with a very skewed response profile, this has not been done.
3.2 Figure 4 shows how frequently respondents use Hampshire Avenue Recreation Ground. 56% report using it weekly or more often.

**Figure 4 - How often do you use Hampshire Avenue Recreation Ground? [Base: 108]**

![Figure 4](image)

3.3 They were asked whether, in their opinion, they live within comfortable walking distance of the recreation ground. To help them answer this question a map was provided in the questionnaire showing the location of the recreation ground (figure 5).

**Figure 5 – map showing Hampshire Avenue Recreation Ground and surrounding area**

![Figure 5](image)

Image created using Cadcorp Web Map Editor. The college shown south of Collyer Avenue has been replaced by the new housing referred to in section 1.1.
3.4 86% report living within comfortable walking distance. Figure 6 shows the relationship between usage and distance from the recreation ground. 62% who feel they live within comfortable walking distance visit weekly or more often compared with just 20% who feel that they don’t live within comfortable walking distance.

Figure 6 – Frequency of visiting by whether respondents feel they live within comfortable walking distance [Base: 108]

3.5 Those who reported living within comfortable walking distance were asked how long it takes them to walk to the recreation ground from their home. Two in three said they live within 5 minutes’ walk, with just over a quarter living less than a minute away (figure 7).

Figure 7 - How long does it take you to walk to Hampshire Avenue Recreation Ground from your home? [Base: 93]
3.6 Figure 8 shows that the recreation ground is used for a wide variety of activities. The most popular activity is the ‘play area’ which is used by almost half of those responding. The demographic profile reported earlier shows that nearly 70% of respondents are females aged over 30 (and 36 out of 41 respondents who use the play area are aged over 30), so this result assumes they are supervising children/grandchildren. ‘General play’ and ‘dog walking’ are the next two most popular activities, each mentioned by more than a third of respondents.

Figure 8 - What do you currently use Hampshire Avenue Recreation Ground for? (please tick all that apply) [Base 88]

3.7 All respondents, whether they use Hampshire Avenue Recreation Ground or not, were asked what, if anything, they currently like about it. Full responses can be found in the appendix to this report. The following quotes provide a flavour of their responses:

- “Big open space, lots of space for everyone, whether ball play, dogs or swing park.”
- “It’s a good sized open space; it’s good to see teenagers in groups during the summer chilling out with space around them.”
- “It’s a lovely open green space. Has been there for years and I like to take my grandchildren over there to run around as I used to do when I was a little girl.”
- “It’s the only open green space within walking distance for other residents and me to walk their dogs. It’s a good communal area to meet other dog walkers and for local kids to play and parents to take smaller kids to the play park. Good area for the community to use and hold fetes etc.”
- “Lovely large space, nice to see football being played and play area being used.”
• “The open space. The play area has been updated and seems to help amuse the kids again.”

3.8 The word cloud (figure 9) uses a different format to summarise people’s comments. These comments mirror the activities reported above.

Figure 9 - What, if anything, do you currently like about Hampshire Avenue Recreation Ground? [Base: 79]

3.9 Respondents were then asked what, if anything, they currently dislike about it. Full responses can be found in the appendix to this report. The following quotes provide a flavour of their responses:

• “Bad/unsavoury people loitering, creating a nuisance or worse.”
• “Difficult to park on the road close to the children’s park. Also the litter is a problem as with all the parks.”
• “Dog mess everywhere!”
• “Groups of eastern European adult males drinking and leaving leftover food and drinks cans on the field. Also groups of teenagers doing the same. It can be quite intimidating and the mess they leave is disgusting.”
• “It’s just grass and a play area at the moment - it has no paths, benches, and no structure to it. No flowers or shrubs or trees.”
• “Looks shabby and sometimes attracts the wrong people. Can be quite intimidating.”
• “Unsafe, poorly lit children’s play area. Needs all weather surface put down”
• “No character at all.”
• “Not enough seating for parents while their children play.”
• “Nothing for disabled children who would like to play alongside their siblings rather than have to sit at the side and watch.”
• “The lack of football posts!”
• “The play area is in urgent need of upgrading and better maintenance. Some of the equipment is in poor condition, doesn't allow for good quality physical play and there is a lot of litter and dog poo. The grass in the play area gets very muddy and it would be best if the area was resurfaced.”

3.10 The word cloud (figure 10) summarises people’s comments.

Figure 10 - What, if anything, do you currently dislike about Hampshire Avenue Recreation Ground? [Base: 78]

3.11 When asked, 93% of respondents say they would like to see changes to the recreation ground, which could be in the form of changes to recreation facilities and/or to landscaping.

3.12 Those who say they would like to see changes were invited to look at example pictures (figure 11) of potential new recreation facilities and indicate which three they would most like to see at Hampshire Avenue Recreation Ground.
Figure 11 - Please look at the following recreation facilities and indicate which THREE you would most like to see at Hampshire Avenue Recreation Ground (note that the images shown are indicative and are not necessarily the items that would be installed):

![Recreation Facilities Images]

3.13 Their preferences are shown in figure 12. ‘Children’s play equipment’ was mentioned in the top three by 57% of respondents, followed by three facilities (toddler’s play equipment; an informal kick about area; and outdoor exercise equipment) each mentioned by 43-44% of respondents.

**Figure 12 – Preferences for recreation facilities [Base: 98]**

3.14 Respondents could add other suggestions. Nearly one in four ticked ‘other’; whilst many took the opportunity to then add several of the listed options in the free text box, other suggestions included:

- “Disabled user swings, sensory play.”
- “Seating areas.”
3.15 Those who say they would like to see changes were then invited to look at example pictures of potential landscape improvements (figure 12) and indicate which three they would most like to see.

Figure 13 - Please look at the following landscape improvements and indicate which THREE you would most like see at Hampshire Avenue Recreation Ground:

![Images of landscape improvements: More benches, More litter bins, More dog waste bins, More trees, A community notice board, Ornamental planting, Flower meadow strips, Spring bulbs, Improved access to site (paths)]

3.16 Their preferences are shown in figure 14. ‘More benches’ was the clear favourite, coming in the top three for nearly two thirds of those responding. ‘More trees’ were mentioned by almost two in five.

Figure 14 - Preferences for landscape improvements [Base: 99]
3.17 As with the previous question, a number of respondents ticked the ‘other’ box as one of their three choices then added several of the listed options in the free text box. Other suggestions included:

- “Fencing and winter lighting for the new recreation areas.”
- “Hard standing for events.”

3.18 Finally, respondents were asked whether they would like to stay in touch and/or get involved in some of the landscape projects, for example tree and bulb planting. 56 said that they would like to stay in touch and 12 said that they would like to get involved in some of the landscape projects. Their contact details were recorded and passed to the team managing this project.
APPENDIX

Q2. What do you currently use Hampshire Avenue Recreation Ground for? Other uses

“Find it too intimidating to go there with my toddler. The youths there can be aggressive and verbally abusive.”

“Training.”

“Walk past it.”

“Mixed activities, frequently with grandchildren, as we live in Hampshire Avenue.”

Q5. What, if anything, do you currently like about Hampshire Avenue Recreation Ground?

“A close area to my home where the kids can play.”

“IT’s a lovely open green space. Has been there for years and I like to take my grandchildren over there to run around as I used to do when I was a little girl.”

“A nice large open green space for local residents to use. Parking is pretty good as well although I live close enough that I wouldn’t need to use my car.”

“It’s an open space that should be used more for events.”

“An open space for children, families and dogs to enjoy.”

“It’s an open, green space where kids and families can play and people can walk their dogs.”

“Big open space, lots of space for everyone, whether ball play, dogs or swing park.”

“It’s close to my house.”

“Big.”

“It’s good for the kids to have a play and a nice space for dog walking.”

“Field.”

“It’s near my house.”

“Free to use.”

“It’s opposite my daughter’s school. My son’s Martial Arts Bognor Cam.”

“I didn’t know it was there - will go and look.”

“It’s it’s an open, green space where kids and families can play and people can walk their dogs.”

“I like that my small granddaughter can use the park and green.”

“It’s close to my house.”

“I like the fact that there is a safe place for kids to play; something I did myself as a child and also somewhere I have enjoyed for over 40 years.”

“It’s a lovely open green space. Has been there for years and I like to take my grandchildren over there to run around as I used to do when I was a little girl.”

“I like the multi use aspect, play, regular sports, community events.”

“It’s a lovely open green space. Has been there for years and I like to take my grandchildren over there to run around as I used to do when I was a little girl.”

“I live directly opposite the field and I like the fact that when I look out of my window I am looking at greenery and not into someone else’s property. I like the sense of space that the field gives.”

“It’s opposite my daughter's school. My son's Martial Arts Bognor Cam.”

“It has an enclosed play area.”

“It’s the only open green space within walking distance for other residents and me to walk their dogs. It’s a good communal area to meet other dog walkers and for local kids to play and parents to take smaller kids to the play park. Good area for the community to use and hold fetes etc.”

“It is a lovely open space for walking.”

“It’s a nice size field.”

“It’s near my house.”

“It’s a nice size field.”

“It’s a nice open space for walking and ball games.”

“It’s a good sized open space; it’s good to see teenagers in groups during the summer chilling out with space around them.”

“It’s nice green open space for walking the dogs and playing.”

“It’s a green open space where children can run and play and you can keep an eye on them.”

“It’s nice open space for the kids to play.”

“Lovely large space, nice to see football being played and play area being used.”

“My daughters like the variety of playground activities.”

“My open space for the kids to play.”

“Nice green open space for walking and ball games.”

“Lovely to have a green open space that can be used for many things. A safe play area.”
“Nice space and nice for children to play in park area.”

“Nice to have a green area close to where I live.”

“Not a lot but it’s the only play area within walking distance - if there was anywhere else I would go there.”

“Nothing much apart from it being a large open space for dog walking, general play, also for community car boot sales etc.”

“Nothing.” (x 3)

“Open area, good area for children, dogs.”

“Open space for community use.”

“Open space that is available to use freely, and as often as I like. Also available for children to play and meet with their friends. Organised events which are able to use ground.”

“Open space which is good for children to play in.”

“Open space.” (x 2)

“Openness, friends, children use.”

“Openness, traditional meeting point.”

“Park for children.”

“Play area = fenced in dog free. Green open space.”

“Play area quite good - but could be better.”

“Play area, open space for children to burn off some energy.”

“Playground.”

“See the community uses it regularly for football and families.”

“Somewhere for children to play safely.”

“That children can use the area to play football, etc, and use the playground.”

“The big seated swing.”

“The children’s play area, although it could be bigger.”

“The only thing I like is the play area is fenced off from dogs.”

“The open aspect. Young people using it for football/rugby. Older people walking dogs and in summer youngsters sitting on the grass chatting and just generally relaxing there.”

“The open grass.”

“The open space, play area.”

“The open space. The play area has been updated and seems to help amuse the kids again.”

“The openness of the area, it’s easily accessible from all sides. It’s near the community centre but far enough away from the main road to be fairly safe.”

“The play park is good for my grandchildren when not full of teenagers.”

“The playground.”

“The recreation ground allows you to play football, fly kites and is a good open space for walking dogs.”

“The size.”

“The space. In the summer families and friends meet up. Kids playing football.”

“The swings.”

“The up and down swing thing has finally been replaced. Different play things.”

“The variety at the park.”

“Valuable green space in a deprived area. The site is really well used by all ages.”

“We are fortunate to have a space like it so close to home. My daughter can go and play there by herself.”

“Well-placed to be a community asset.”

“Wide open space to use.”

Q6. What, if anything, do you currently dislike about Hampshire Avenue Recreation Ground?

“A bit open...maybe it could be enclosed as the roads around it are very busy?”

“Bad/unsavoury people loitering, creating a nuisance or worse.”

“Beer cans, glass bottles, and food wrappers thrown on the ground especially in the summer. The trees and bushes are too severely cut back around the edges of the field due to too many contractors.”

“Benches.”

“Broken glass needs picking up more.”

“Could do with more facilities.”
“Difficult to park on the road close to the children’s park. Also the litter is a problem as with all the parks.”

“Dog faeces, noisy children, location.”

“Dog mess everywhere!”

“Dog mess left on field.”

“Dog mess not picked up as like main parks. Could improve on the climbing things.”

“Dog mess, rubbish.”

“Dog owners allow their dogs to foul.”

“Dog mess not picked up as like main parks. Could improve on the climbing things.”

“Dog shit and rubbish.”

“Dog walkers not cleaning up mess in area. Youths hanging around after dark leaving mess/drink cans.”

“Dog walkers not clearing up after their dogs.”

“Dog’s muck.”

“Dogs that are not cleared up after and drunken men drinking during the day.”

“Don’t like the eastern Europeans hiding in the bushes and drinking in public.”

“Drunks sitting around by Arnhem Road corner - very intimidating and they leave a mess. Vandalism to fencing and play area. Dog fouling.”

“Groups of eastern European adult males drinking and leaving leftover food and drinks cans on the field. Also groups of teenagers doing the same. It can be quite intimidating and the mess they leave is disgusting.”

“How dirty the play area is - but there is nothing else near enough to walk to, to take my daughter. It is always filthy, broken glass, broken equipment.”

“I didn’t know it was there - will go and look.”

“I dislike all the Polish sitting in groups drinking alcohol, leaving their empty beer cans and other rubbish lying around, and the broken glass.”

“I feel it’s not a nice place to be, especially if one is on their own.”

“I was brought up on Chichester Road (one road back) from this playing field. My parents still live there. I have noticed a decline over the past few years when I have been walking past the field to visit my parents. This field, and the rugby field nearby, is important as there are not very many places for children to go nearby, and having open spaces encourages exercise and hopefully provides a reasonably safe area for supervised children to play.”

“It looks bland and tatty.”

“It needs knocking down and rebuilding. Poor play area, filled with youths of an evening. Would use it so much more if it had decent play equipment.”

“It needs more of a focus and the play park improving.”

“It’s boring - nothing there. The play park is rubbish.”

“It’s just grass and a play area at the moment - it has no paths, benches, and no structure to it. No flowers or shrubs or trees.”

“It’s too boring; the new estate is much prettier, needs to be something like that.”

“Lack of parking; no toilets; no drinking water; not fenced off; no hard surface for basketball; no lighting for the winter months; nothing for skaters, skate boarders and bmx riders; no running track.”

“Litter scattered around and inside the park.”

“Looks shabby and sometimes attracts the wrong people. Can be quite intimidating.”

“Lots of litter left on the field especially after football matches. Also groups of youngsters congregate on field at night and leave drink cans, food wrappers and broken glass on the field. Spent fireworks are often left on the field in the winter. Not safe for children who play on the field or dogs. Would also like to see more dog bins, only two, one of which is very small and responsible dog walkers have to walk some distance to deposit packages. There are at least four rubbish bins on the field two of which are outside the children’s play area but there is still a lot of rubbish around the area.”

“Muddy, unusable. Unsafe, poorly lit children’s play area. Needs all weather surface put down. Boundaries do not stop balls going into road - needs planted trees around perimeter to help. Muddy field covered in dog poo. Build a walking path around perimeter for dog walkers, joggers, scooters, skates, bikes…. a safe place for our young children to do these fun hobbies (see park in Chichester near Blackberry Lane). Please note: it is a farce that Arun District Council is not adding funds to this to get the site up to an equal level to others in area. This is a more highly populated area compared to Flansham Park and Yapton etc. It needs some funds from Arun District Council and Bognor Regis Town Council. They put all that money into the Picturedrome. Do something that the kids can enjoy without having to pay a fee or a membership etc. In my
view the rec has been neglected for 20 years. Now any money they put in is just what they should have put in over last 20 years. Build hard standing football/basketball court with fencing for the older kids, with lighting for evenings (see Yapton, and Blackberry Lane parks). Stop renting field out to the rubbish fun fair. It’s expensive, destroys the field (nearly twisted my ankle in a groove left by their trucks), rubbish is left everywhere after they leave; way too many caravans there, there is no way that they all work on the fair. Build a safe bike path/walking path and crossings linking the rec to sea front (not with this budget, but I had to suggest it as there is no clear safe route for young families to town or sea front. I have contacted ADC & BRTC about this for last 4 years - they should match the 106 funding.”

“Needs investment, very rough around the edges.”

“Needs strict enforcement of the lower speed limit including traffic calming measures and harsh fines + named and shamed for those exceeding the limit before some child gets killed.”

“No character at all.”

“Not a lot to do there. Needs the community police to go past regularly as some of the kids gang up on others.”

“Not enough seating for parents while their children play.”

“Not enough shade from trees and bushes - environmental issues. Also a bench or two...bit like St George’s in Felpham. Nothing for disabled children who would like to play alongside their siblings rather than have to sit at the side and watch.”

“Not enough things for the community to do e.g. events.”

“Not enough trees.”

“Nothing.” (x 4)

“Open to surrounding roads = balls roll into street.”

“Other dog owners not picking up their dog’s waste.”

“People feeding cats and seagulls on there and leaving chicken bones around.”

“Possibly the fence - easy to get out.”

“Rather featureless and boring, neglected potential, uninviting, little community pride or involvement, little imagination regarding use, management, planting etc.”

“Rubbish etc left around.”

“Rubbish. Lack of benches due to drunks etc.”

“Rubbish. Lack of seating/benches due to drunks etc congregating.”

“Rubbish.”

“Should be more things for all aged children.”

“Teens loitering about in groups, quite intimidating. Dog poo not picked up.”

“That it gets flooded regularly and the play area needs updating.”

“The amount of dog mess is disgusting. The lack of football posts! When we first moved in the posts used to keep lots of kids out of mischief and open helped make new friends. Since they were taken away the kids have less been likely to play and vandalism has increased.”

“The area around the dog bin on the corner closest to Chichester Road gets waterlogged. Litter needs picking up more often. Could do with a low fence around it.”

“The concrete block in the corner which often has broken glass around it.”

“The dog mess.”

“The dogs mess that dog owners do not clean up. The child play area is too small.”

“The idea that ANYTHING might be built on the recreation ground.”

“The lack of facilities, benches, picnic area, better play for all ages no cafe for use throughout the year.”

“The lighting is very inadequate on and around the field. When it is dark no one can see anything on the field and the trees are a great hiding place when dark too. The street lighting goes off at approximately midnight plunging the street and more so the field into darkness. Many a time I have heard girls screaming on the field and cannot see the field to check if they are just mucking around or if they are actually in danger.”

“The play area is in urgent need of upgrading and better maintenance. Some of the equipment is in poor condition, doesn't allow for good quality physical play and there is a lot of litter and dog poo. The grass in the play area gets very muddy and it would be best if the area was resurfaced.”

“The playground - not enough.”

“The rest of it (other than the big seated swing).”
“The total lack of regard for the lower speed limit by at least 95% of traffic using the road and those encompassing it!!”

“The uneven surface level of the ground. Needles on the path and used condom wrappers.”

“There are broken fences, benches have been stolen, very few maintained flower and shrub beds and a rather dated play area for children.”

“There’s not much for the children to do in the park e.g. if there’s more than 10 children.”

“They could do with more seating for tired mums and dads.”

“Too many dogs and dog poo.”

“Too much dog mess.”

“Took long time to replace up/down swing.”

“When the fair comes. Lack of structured facilities for children. No formal sports use.”
